PROGRAM OVERVIEW:
The role of the K-12 assistant principal today requires an educational leader who is both an instructional and curricular leader as well as a leader who can juggle the many other demands of their position.

The purpose of the Seminar for Assistant Principals is to support these leaders build their capacity to enhance student learning and create success for their schools and for themselves while assuming a leadership role alongside of the principal.

The Seminar will help participants identify their areas of focus, establish priorities, and develop their plans for growth and greater success incorporating Georgia Leader, School and Teacher Keys and the CCGPS.

Through a research-based curriculum, participants will focus on using multiple approaches to solving leadership challenges, supporting teaching and learning in the classroom, and leading and managing their schools more effectively.

PARTICIPANT OUTCOMES:
Objectives for the Seminar for Assistant Principals include preparation and readiness to:

- Identify the components of a positive school culture and determine the strategies to build and maintain a positive learning environment for students and teachers
