ASPIRING LEADERS INSTITUTE, Atlanta 2018-2019

PROGRAM OVERVIEW
The Principals Center began in 1984 and has been working to help school leaders develop their leadership skills since then. The Principals Center offers the Aspiring Leaders Institute for the 2018-2019 school year. The goal of the Aspiring Leaders Institute is to prepare participants to take on a higher leadership role and to provide them with the tools, frameworks, and leadership skills to build and sustain high-quality teaching and learning environments.

The seminar series is designed for school leaders who anticipate a position as assistant principal, principal or other school leader role over the next few years. The National Professional Standards for Educational Leaders and the Georgia DOE Leadership Standards will be used as the foundation for all learning experiences. All of the sessions for the year will include content development, interactive discussion and resources.

PARTICIPANT OUTCOMES
Participants will study and discuss how school culture, change, conflict, communication, and community involvement are factors that impact the ability of schools to increase student achievement. With these topics as the broad framework, program objectives are as follows:

- Develop a personal leadership position with a vision for success
- Focus on improving instruction through effective teacher supervision and evaluation
- Learn how to monitor Curriculum, Instruction, and Assessment alignment
- Learn the processes involved in school improvement planning
- Learn how to create a school culture that will support learning for all students
- Learn research-based leadership strategies for improving student achievement
- Learn how to resolve/mediate/manage conflict
- Understand how change and conflict can impact the school’s learning environment
- Develop knowledge and skills for better communication
- Study other issues and topics of importance to aspiring leaders
